

QuicRefill Pitch Deck

Where Energy Meets Convenience, Recharging Lives

www.quicrefill.com

COMPANY OVERVIEW

QuicRefill is an innovative digital platform designed to transform the way individuals and businesses access essential energy products, including **Solar sales and installation services, Electricity Purchase, Diesel, Petrol and Cooking Gas**. By leveraging cutting-edge technology, QuicRefill offers a seamless, on-demand experience that connects customers with trusted vendors and logistics partners across multiple regions. The platform is built with user convenience at its core, providing a simple, intuitive interface that allows customers to place orders, track deliveries, and manage their energy needs effortlessly.

With a strong focus on reliability, affordability, and scalability, QuicRefill ensures fast and safe delivery through a carefully curated network of vendors and logistics providers. The platform also promotes energy accessibility by offering flexible payment options tailored to diverse customer needs, including households, small businesses, and large enterprises.

VISION

Our vision is to become Africa’s leading on-demand energy provider by making energy access seamless, affordable, and efficient. We are building a reliable platform that connects households and businesses to gas, diesel, petrol, solar, and electricity to vendors and customers without delays and physical barriers. Through innovation and partnerships, we aim to empower communities and drive sustainable development across the continent

MISSION

We aim to make energy access as simple and reliable as ordering food or booking a ride. Through smart technology and trusted partners, we offer on-demand delivery of cooking gas, diesel, petrol, and solar products with flexible payment options. Our mission is to remove barriers and make dependable energy access a standard for households and businesses.

VALUE PROPOSITION

01

Our value proposition is simple and powerful: providing quick, reliable access to clean energy with just one tap.

02

Our platform enables customers to order cooking gas, diesel, petrol, solar solutions, and even electricity from their mobile phones, without stress or delay

IMPACT

Inconsistent fuel access continues to be a major barrier for households, businesses, and critical services. When fuel is unreliable or delayed, the ripple effects are widespread operations slow down, costs increase, and daily routines are disrupted. For small businesses, this could mean halted production or lost revenue; for families, it might mean limited access to transportation or power for essential needs.

At QuicRefill, we understand that energy reliability is fundamental to stability and growth. That's why we've developed a streamlined, on-demand fuel delivery system designed to ensure consistent, efficient, and safe fuel access anytime, anywhere. By removing the uncertainty around energy supply, we empower our customers to focus on what matters most: productivity, progress, and peace of mind.

KEY OBJECTIVES

Our key objectives center on revolutionizing access to essential energy products by leveraging a seamless, on-demand digital platform. By prioritizing user experience, we aim to simplify the process of ordering energy products, ensuring customers can meet their needs conveniently and efficiently. Through intuitive design and real-time responsiveness, the platform empowers users to access energy solutions at their fingertips, creating a frictionless connection between supply and demand.

To further strengthen our value proposition, we focus on fast, safe, and affordable delivery by collaborating with trusted vendors and logistics providers. This partnership approach not only guarantees timely service but also enhances the reliability and affordability of our offerings.

Seamless Digital Access

To provide seamless, on-demand access to essential energy products through a user-friendly digital platform.

Fast and Reliable Delivery

To ensure fast, safe, and affordable delivery by partnering with reliable vendors and logistics providers.

Expanding Energy Accessibility

To promote energy accessibility with flexible payment options and scalable operations across regions.

PROBLEM

Millions of households and businesses across the country face persistent challenges in accessing timely and reliable energy supplies issues that disrupt livelihoods, slow down economic activity, and compromise quality of life. At **QuicRefill**, we recognize that dependable energy is not just a convenience but a critical enabler of progress. Our mission is to bridge this accessibility gap by delivering efficient, on-demand fuel and energy solutions where and when they're needed most. Whether it's powering homes, supporting small enterprises, or fueling large industrial operations, QuicRefill is committed to making energy supply faster, smarter, and more inclusive especially in underserved and hard-to reach communities.

MARKET FIT

\$20 Billion

Total Available
Market Size(TAMS)

140 Million

Serviceable Available
Market (SAM)

80 Million

Serviceable Obtainable
Market (SOM)

The Nigeria energy delivery market, valued at \$20,405,000,000, presents strong potential for tech-driven solutions in energy services such as cooking gas, diesel, petrol, and solar system solutions, supported by infrastructure limitations and increasing energy consumption.

Targeting urban households, SMEs, and corporate buildings, Quicrefill delivers fast, reliable energy solutions with a focus on convenience, transparency, and safety.

Quicrefill is positioned to capture early market share by offering a digital-first, on-demand energy delivery platform in a largely untapped tech space.

OUR BUSINESS MODEL

Quicrefill Energy Service Limited earns through profit markup on the sale of energy and products sales, and solar product sales and installation services.

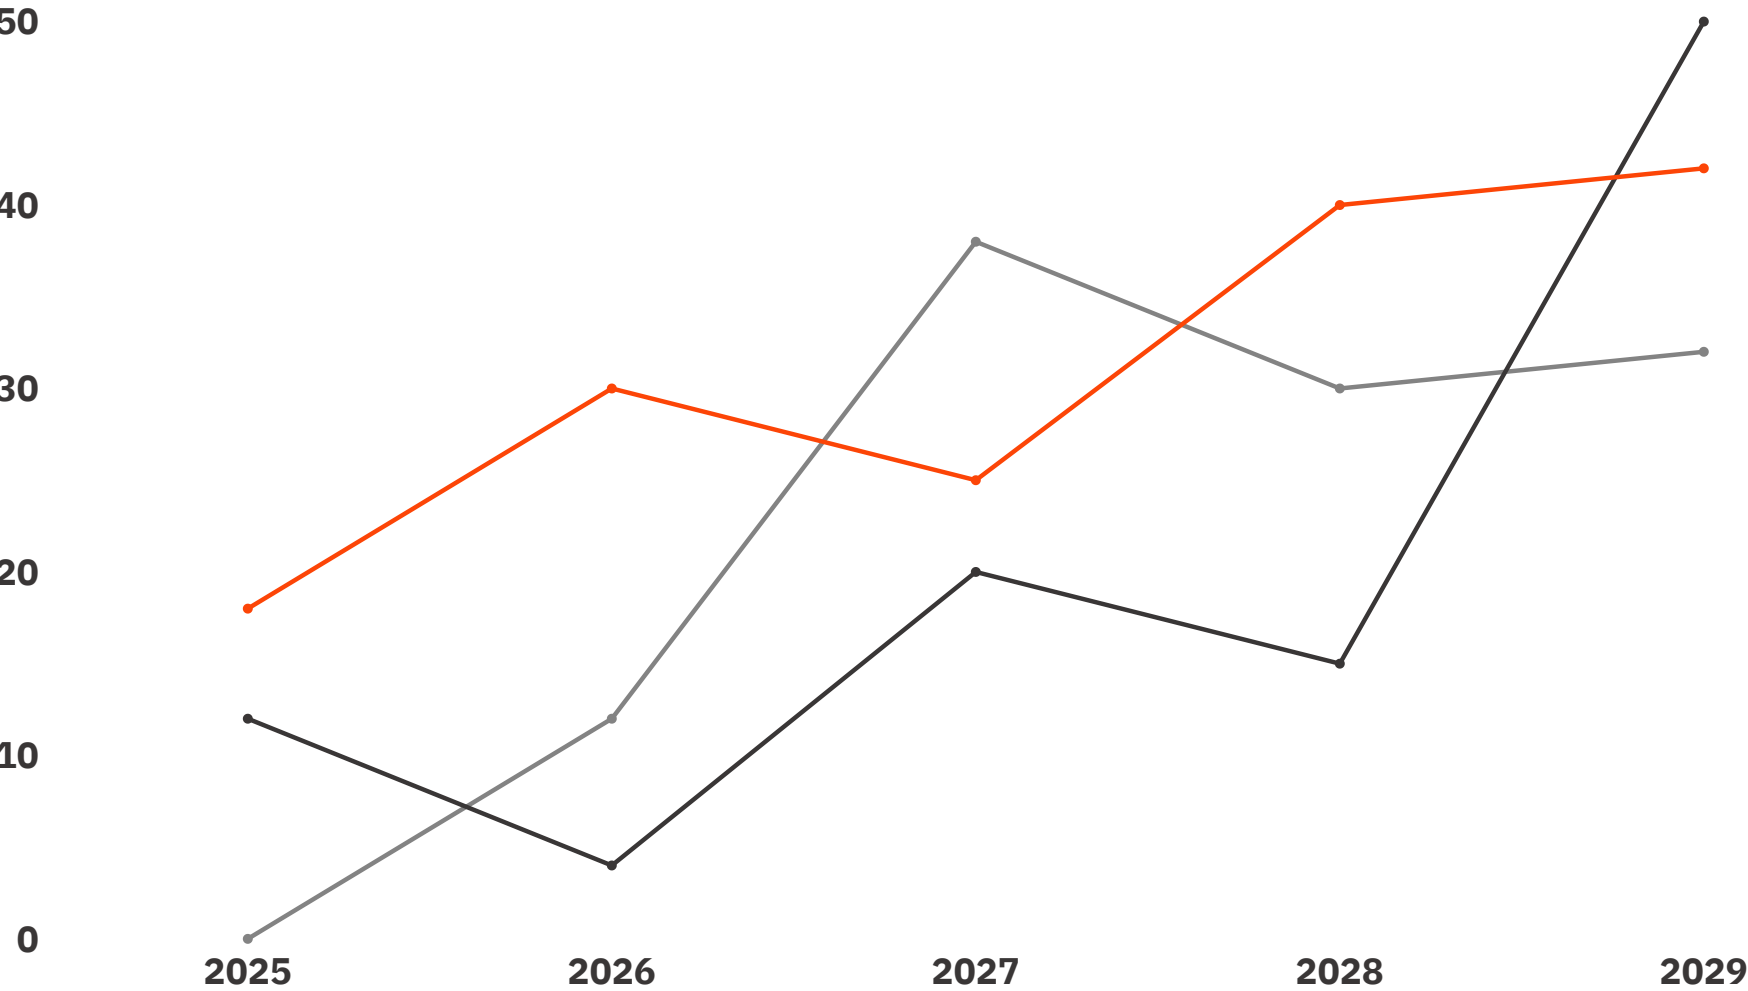

It partners with certified vendors and major distributors for fast, reliable service without owning any major physical facility/infrastructure.

Operations are streamlined through the mobile app that handles payments, order management and tracking, and delivery logistics.

COMPANY TRACTION

EARLY ACHIEVEMENT

We successfully launched our Minimum Viable Product (MVP), completing over 1,200 energy product deliveries to households and businesses. This early adoption highlights the immediate demand for a more convenient energy access method.

PILOT PARTNERSHIP

Initial partnerships with local energy vendors and service providers are ongoing, helping us refine operations and expand reach within the existing market. These collaborations are crucial for building a reliable and efficient delivery network.

MARKET VALIDATION

Strong user retention and consistent repeat orders demonstrate clear demand for reliable, app-based energy access. This indicates that users value the convenience and dependability our platform offers.

USER GROWTH

Our user base is growing steadily at a rate of 20 percent month-overmonth, indicating growing market interest and the increasing adoption of our service as a preferred energy access solution

CUSTOMER SATISFACTION

We have achieved a 90 percent satisfaction rate, highlighting the effectiveness and reliability of our service model in meeting customer needs and expectations

WHY INVEST IN QUICREFILL

Investing in QuicRefill Energy Service presents a unique opportunity due to our clear market demand, scalable business model, and a driven team with deep industry insights. Here's why we stand out:

CLEAR MARKET DEMANDS

Business to Customers

There is a rising demand for reliable and accessible energy solutions in underserved areas. QuicRefill meets this need with a digital platform that delivers cooking gas, diesel, petrol, solar, and electricity directly to customers.

Business to Retail Vendors

There is a growing demand for reliable energy supply among businesses and vendors, and QuicRefill meets this need by connecting them to verified suppliers with real-time ordering, transparent pricing, flexible payments, and dependable logistics

Business to Business

Many businesses urgently need reliable access to cooking gas, diesel, petrol, and solar solutions to maintain operations but face unreliable supply and high costs. QuicRefill solves this by providing a dependable digital platform for real-time ordering, flexible payments, and scheduled energy deliveries.

SCALABLE BUSINESS MODEL

Our scalable business model uses technology and strategic partnerships to deliver energy products efficiently and affordably. With flexible payment options and regional adaptability, we are positioned for rapid growth and long-term sustainability.
